# REPORT

TO

The Right Honourable HENRY CHAPLIN, M.P.,  
President of the Local Government Board, &c. &c.

---

(1895.)

SIR,

I HAVE the honour to submit to you the following report on the marriages, births, and deaths registered in England and Wales during the year 1895.

## POPULATION.

The population of England and Wales, as enumerated on 6th April 1891, consisted of 29,002,525 persons. The natural increase, by excess of births over deaths, from the beginning of April 1891 to the middle of 1895 amounted to 1,501,825, and, if there had been neither emigration nor immigration, this would have raised the population to 30,504,350 at the latter date. In the absence of precise information regarding these disturbing causes the populations given in the Annual Reports are estimated on the assumption that the rate of increase which had prevailed in the intercensal period immediately preceding has since been maintained.

The census of London, which was taken in March 1896, afforded an opportunity of revising the estimates for the years 1891-95. Accordingly the populations for these years, which are shown in Table 1, and are used in the calculation of the marriage, birth, and death-rates in this Report, are estimated on the assumptions that the rate of increase in London was constant between 1891 and 1896, and that the rate of increase in the remainder of the country was constant between 1881 and 1895. The population of England and Wales, calculated in this way, amounted in the middle of the year 1895 to 30,383,047 persons, of whom 14,721,820 were males, and 15,661,227 females.

## MARRIAGES.

The number of marriages registered in the year 1895 was 228,204, corresponding to a rate of 15·0 persons married per 1000 living, against 15·1 per 1000 in the previous year, and an average of 14·9 in the ten years 1885-94. The lowest marriage-rates in registration counties during 1895 were 11·1 in Rutlandshire, 11·3 in Middlesex, 12·1 in Cumberland, and 12·2 in Surrey, in Hertfordshire, and in Herefordshire; the highest

rates were 16·0 in South Wales and in Lancashire, 16·1 in Warwickshire and in the East Riding of Yorkshire, 16·2 in Nottinghamshire, and 17·2 in London. Most of these counties had occupied similar positions in the respective lists of low and high marriage-rates in the previous year, and also in the ten years 1885-94.

The slight fall in the marriage-rate, as compared with that of 1894, was accompanied by a rise of 4 per cent. in the value of British exports, a rise of one per cent. in the value of imports, and a rise of one per cent. in the average price of wheat per quarter. The amount, per head of the population of the United Kingdom, which was cleared at the Bankers' Clearing House was greater in 1895 than in either of the immediately preceding four years, and 18 per cent. greater than in 1894 (Table A).

TABLE A.—MARRIAGE-RATE, VALUE of BRITISH EXPORTS and IMPORTS, PRICE of WHEAT, and amount cleared at the London Bankers' Clearing House, 1860-95.\*

YEARS.	Marriage-rate.	Value per Head of Population of United Kingdom.			Average Price of Wheat per Quarter.	Amount cleared at the Bankers' Clearing House per Head of Population.

1885	14·5	5 18 4	10 6 0	17 16 9	32 10	202
1886	14·2	5 17 2	9 12 8	17 0 10	31 0	214
1887	14·4	6 1 3	9 17 11	17 11 7	32 6	218
1888	14·4	6 7 2	10 10 2	18 12 1	31 10	247
1889	15·0	6 13 11	11 10 0	19 19 9	29 9	268
1890	15·5	7 0 7	11 4 5	19 19 7	31 11	271
1891	15·6	6 10 10	11 10 5	19 14 0	37 0	235
1892	15·4	5 19 2	11 2 5	18 15 6	30 3	220
1893	14·7	5 13 6	10 10 7	17 14 9	26 4	218
1894	15·1	5 11 3	10 10 7	17 11 9	22 10	211
1895	15·0	5 15 6	10 13 0	17 19 1	23 1	250

\* The figures in the marriage-rate column are not strictly comparable with those in columns 2, 3, and 4, inasmuch as the former relate only to England and Wales, whilst the latter relate to the whole of the United Kingdom. The figures relating to exports and imports and to the price of wheat, and those showing the amount cleared at the London Bankers' Clearing House, are derived from the Board of Trade Statistical Abstracts.

*Forms of Marriage.*—Of the 228,204 marriages contracted in England and Wales in 1895, 156,469, or 686 per 1000, were celebrated according to the rites of the Established Church, and 71,735, or 314 per 1000, otherwise (Table 7). These proportions are exactly the same as those of the previous year, 1894. The proportion of marriages amongst Roman Catholics decreased from 42 to 41, and that among other Christian non-conforming bodies increased from 119 to 120, while the proportion of civil marriages declined from 148 to 147. Jewish marriages again showed a slight increase, from 5.0 to 5.3 per 1000; this further supports the opinion, expressed in the Fifty-fourth Annual Report, that the number of Jews in the country has increased during recent years.

*First marriages; Re-marriages, &c.*—Of each 1000 men married during the year 1895, 891 were bachelors and 109 widowers; of each 1000 women married, 924 were spinsters and 76 widows (Table 9). The proportions of both widowers and widows who re-married in 1895 were lower than those in 1894, which had been the lowest on record. The following figures show the progressive decline in the proportions of re-marriages which has been going on for several years :

		In 1000 Marriages.	
		Widowers.	Widows.
1871-75	- - -	138	100
1876-80	- - -	136	98
1881-85	- - -	126	89
1886-90	- - -	119	83
1891-95	- - -	113	79

The number of persons married in 1895 who were described in the marriage register as having been previously divorced, and who in the Tables are included among the bachelors and spinsters, was 262, of whom exactly half belonged to each sex. The total exceeded that in any of the preceding ten years, in which the numbers had ranged from 150 to 232. Of the 131 divorced men who married in 1895, 112 married spinsters, 12 married widows, and 7 married divorced women. Of the 131 divorced women who married in 1895, 93 married bachelors, 31 married widowers, and 7 married divorced men.

*Ages at Marriage.*—In regard to 5417, or 2.4 per cent., of the 228,204 marriages, the age of one or other of the contracting parties was omitted from the register. Of the remaining 222,787 couples, whose ages were stated, the mean ages were 28.42 years for men and 26.16 years for women. Among those whose ages were stated the mean age of the bachelors who married was 26.59, and of the spinsters 25.04 years; the mean age of the widowers who re-married was 44.28, and of the widows 40.46 years. In the Report for 1894 a decrease was noted in the mean age of each group as compared with the respective groups in 1893. The figures for 1895 show a further decrease in the mean age of the widows who re-married, but an increase in the mean ages of the other groups.

The following Table shows the mean ages at marriage in each of the years 1885-95 :—

TABLE B.—MEAN AGES at MARRIAGE.

Year.	Men.	Bachelors.	Widowers.	Women.	Spinsters.	Widows.
1885	28·15	26·08	43·64	25·86	24·58	40·01
1886	28·21	26·15	43·79	25·90	24·65	40·14
1887	28·21	26·21	43·71	25·92	24·67	40·29
1888	28·29	26·31	43·79	25·97	24·75	40·20
1889	28·23	26·30	43·98	25·95	24·74	40·36
1890	28·32	26·38	44·23	26·03	24·81	40·52
1891	28·37	26·44	44·30	26·08	24·87	40·43
1892	28·46	26·48	44·51	26·19	24·98	40·54
1893	28·51	26·55	44·61	26·23	25·04	40·64
1894	28·41	26·54	44·13	26·15	24·99	40·49
1895	28·42	26·59	44·28	26·16	25·04	40·46

It is worth remark that the changes in the mean age at marriage will be more correctly traced if the ages at which people marry for the first time, and the ages at which they re-marry, are considered separately. For example (assuming that the ages recorded in the marriage register are a fair sample of the ages of all who married), the mean age of all the men who married in 1895 was only ·01 of a year greater than the mean age of all the men who married in 1894; while the mean age of bachelors who married showed an increase of ·05 of a year, and that of widowers who re-married showed an increase of ·15 of a year in 1895. The seeming contradiction is explained by the proportional decrease of re-marriages already adverted to. Had the proportion of widowers in 1895 been 1 per 1000 marriages less than it actually was, the mean age of all men married would have been less in 1895 than in 1894, although the mean ages at first marriage and at re-marriage had both increased.

The proportions of marriages under age were the lowest since 1851 among males, and since 1852 among females, reaching 52 per 1000 marriages and 174 per 1000 marriages respectively. The proportions of marriages under age have shown a steady decline for several years past, as will be seen from the following figures :—

	Marriages under age in 1000 Marriages.	
	Men.	Women.
1871-75 - - -	82	223
1876-80 - - -	78	217
1881-85 - - -	73	215
1886-90 - - -	63	200
1891-95 - - -	56	183

The registration counties which showed the highest proportions of under-age marriages among men were Northamptonshire, Bedfordshire, Cambridgeshire, Staffordshire, Leicestershire, Nottinghamshire, and Monmouthshire. All these counties excepting Cambridgeshire had also been similarly distinguished in one or both of the two previous years.

The registration counties which showed the highest proportions of under-age marriages among women in 1895 were Staffordshire, Nottinghamshire, Derbyshire, the West and East Ridings of Yorkshire, Durham, Northumberland, and Monmouthshire. All these counties had also shown high proportions in the previous year and in the ten years 1885-94.

Speaking generally, counties which had shown the lowest proportions of under-age marriages of either sex in 1885-94, also showed low proportions in 1895.

*Signature in Marriage Register.*—The men who signed the marriage register with marks instead of with their names were in the proportion of 40 per 1000, while the similarly illiterate women reached 48 per thousand. In 13 out of every 1000 marriages both bride and bridegroom signed with marks. In 1841-5 nearly one-third of the men and one-half of the women who were married signed by mark; in 1866-70 the proportions had fallen to 205 per 1000 for men and 283 per 1000 for women. The following table shows the progressive decrease since 1871:—

	Signed by Mark in 1000 Marriages.	
	Men.	Women.
1871-75	185	252
1876-80	148	200
1881-85	123	155
1886-90	84	98
1891-95	51	60

The counties which showed the highest rates of illiteracy were: among men, Huntingdonshire, Cambridgeshire, Suffolk, Norfolk, Monmouthshire, and North Wales; and among women, Staffordshire, Durham, Monmouthshire, and South and North Wales. It is remarkable that in no less than 18 of the 22 registration counties which may be taken to represent the southern part of the country, the men are more illiterate than the women, while in nearly all the counties in the northern part of the country more women than men are illiterate. As between these two parts of the country, however, the amount of illiteracy is much greater for each sex in the northern than for either sex in the southern part, as is shown in the following table:—

	Illiterates in 1000 Marriages.	
	Men.	Women.
Southern counties (Divisions I.-V.)	35	32
Northern counties (Divisions VI.-XI.)	44	59

*Buildings registered for the Solemnization of Marriages.*—At the end of the year 1895 there were 15,199 churches or chapels belonging to the Established Church in which marriages could be solemnized, showing an increase of 33 upon the number at the end of 1894. There were also 11,600 buildings registered for marriages by rites other than those of the Established Church, showing an increase of 171 upon the number on the register at the end of the previous year. (Table 6.)

*Certified Places of Worship.*—The number of buildings certified in the course of the year for religious worship under the provisions of the Acts 15 & 16 Vict. c. 36. and 18 & 19 Vict. c. 81. and recorded in the official register was 524, while 2,124 buildings were removed from the register on proof of disuse; the number standing on the register at the end of the year was 26,687. A revision of the register was commenced in 1894, and at the end of 1895 had been completed for 239 registration districts. The result of this revision has been to remove from the register 2,258 out of 11,573 chapels which these 239 districts had contained. The revision will be continued until the disused places of worship in the whole of the 634 registration districts of England and Wales shall have been expunged.

## BIRTHS.

The births registered during the year numbered 922,291, and were equal to a rate of 30·4 per 1000 persons living, or 0·8 below the average rate in the preceding ten years. The lowest county birth-rates were 24·3 in Sussex, 25·0 in Surrey, 25·4 in Westmorland, 25·5 in Huntingdonshire, 25·8 in Rutlandshire, and 25·9 in Devonshire. The counties with highest birth-rates were Derbyshire 33·0, Nottinghamshire 33·4, South Wales 34·9, Monmouthshire 35·0, Staffordshire 35·6, and Durham 35·8. (Table 11.)

*Sex.*—The births of males numbered 468,886, and the births of females 453,405, the former bearing to the latter the proportion of 1034 to 1000, against an average proportion of 1037 to 1000 in the preceding decennium. The excess of male over female births has shown a general tendency to decline ever since the year 1841 (*see* Table 3). In registration counties the lowest proportions of male to female births were 974 per 1000 in Cumberland, 981 in Oxfordshire, 988 in Derbyshire, 1005 in Buckinghamshire, 1010 in Berkshire and in Warwickshire, and 1011 in Middlesex. The highest proportions were 1066 in Wiltshire, in Cornwall, and in Westmorland, 1068 in Monmouthshire, 1072 in North Wales, 1083 in Dorsetshire, 1101 in Huntingdonshire, and 1188 in Rutlandshire.

*Illegitimate Births.*—The infants registered as born out of wedlock numbered 38,836; they were in the proportion of 42 per 1000 births, and corresponded with the proportion obtaining in 1891–2–3, which was the lowest then on record. In proportion to population the illegitimate births in 1895 were equal to 1·3 per 1000. (Table 3.) Amongst registration counties the lowest proportions of illegitimate to total births were 29 per 1000 in Middlesex and in Essex, 31 in Monmouthshire, 33 in South Wales, and 35 in Somersetshire and in Warwickshire; the highest proportions were 63 in Huntingdonshire, 64 in Norfolk, 65 in North Wales, 70 in Cumberland, 72 in Herefordshire, and 74 in Shropshire.

## DEATHS.

The deaths registered during 1895 in England and Wales numbered 568,997, and were in the proportion of 18·7 per 1000 of the population. Although the rate showed an increase of 2·1 per 1000 upon the unprecedentedly low rate of 1894, it was slightly below the mean rate (18·9) of the ten preceding years 1885-94.

In registration counties the lowest death-rates in 1895 were 14·2 in Rutlandshire and in Westmorland, 14·3 in Middlesex, 14·6 in Surrey, 15·0 in Berkshire, 15·4 in Buckinghamshire, and 15·5 in Oxfordshire; the highest county rates being 19·7 in Northumberland, 19·9 in Durham and in North Wales, 20·2 in Staffordshire, 20·4 in South Wales, and 22·3 in Lancashire. (Table 11.)

*Sex.*—The 568,997 deaths registered in England and Wales included 290,704 of males and 278,293 of females. The death-rate among males was therefore equal to 19·7, and that among females to 17·8, per 1000 living of the corresponding sex. Out of equal numbers living there were 1111 deaths of males to 1000 deaths of females, against a mean proportion of 1121 in the ten years 1885-94. (Table 3.)

*Ages.*—The deaths at the several age-groups had all been lower in 1894 than in any other recent year. In 1895 the rates for both sexes at ages 5 to 10 showed further improvement, while at ages from 10 to 35 they remained nearly stationary, showing, however, a slight tendency to rise. Under 5 years of age the rates showed an increase of 17 per cent. for males, and of 16 per cent. for females, from the low rates of 1894. Both the rates in this age-group in 1895 exceeded the respective averages in 1881-86, 1886-90, and 1891-94, but were below the averages for any quinquennial period prior to 1881. At ages above 35 the rates for both sexes were higher than they had been in 1894, the excess increasing steadily towards the higher ages, and being in general greater among females than among males.

*Infantile Mortality.*—The proportion of deaths of infants under one year of age to registered births in 1895 was 161 per 1000, and exceeded by 15 per 1000 the mean rate in the preceding ten years. The rate was higher in 1895 than in any year since 1847, when it was equal to 164 per 1000. In registration counties the mortality of infants under one year of age ranged from 100 per 1000 births in Rutlandshire, 102 in Wiltshire, in Dorsetshire, and in Westmorland, 105 in Herefordshire, and 107 in Shropshire, to 174 in the West Riding of Yorkshire, 176 in Staffordshire, 178 in South Wales, 181 in Durham, 187 in the East Riding of Yorkshire, and 193 in Lancashire.

*Urban and Rural Mortality.*—The death-rates during 1895 in the districts taken to represent the urban and the rural portions of the country are given in Tables 28 and 29. The urban death-rate was equal to 19·5 per 1000, and the rural rate to 17·0 per 1000 of the respective populations. Both the urban and the rural rates were below their averages in the preceding ten years by 0·3 per 1000. The ratio in 1895 of urban to rural rates was 115 to 100, against an average ratio of 114 to 100 in the immediately preceding ten years.

## REGISTERED CAUSES OF DEATH.

*Changes of Classification.*—In the year 1881 a new system of classification of causes of death, based on the nomenclature of diseases prepared by the Royal College of Physicians, was adopted in these Annual Reports. The change involved many important modifications of the Tables, and in arranging the details of Tables 17 to 22 of the present Report the figures published in the Reports prior to 1881 have been as far as practicable corrected so as to be, for the most part, comparable with the figures for subsequent years. There still remain, however a few instances in which no satisfactory adjustment has been practicable for the years 1875–80. In order to explain, as fully as possible, the apparent discrepancies between the old Tables and the new, the following expedient has been adopted. Every heading in Tables 17–22 which is affected by a change of classification is marked either with an asterisk or with a dagger, or with both. An asterisk denotes a change or changes in respect of which full correction has actually been carried out; a dagger denotes a change or changes in respect of which no correction, or only partial correction, has been practicable. All the headings thus affected are inserted in alphabetical order in a numbered list of diseases which was printed as an Appendix to Tables 17–22 in the Fifty-seventh Annual Report, and in which reference numbers have been employed indicating the several changes of classification.

The deaths registered in 1895 and in the ten years immediately preceding, when distributed to the several “classes” by their assigned causes, were equivalent to the rates shown in the following table:—

TABLE C.—ANNUAL RATES OF MORTALITY FROM THE SEVERAL CLASSES OF DISEASES, PER 1,000,000 PERSONS LIVING.

Year.	All Causes.	Zymotic Diseases.	Parasitic Diseases.	Dietetic Diseases.	Constitutional Diseases.	Developmental Diseases.	Local Diseases.	Violence.	Ill-defined and not specified Causes.
1885 - - -	19,205	2,531	30	60	3,310	1,614	10,007	634	1,019
1886 - - -	19,522	2,679	36	61	3,370	1,638	10,040	634	1,064
1887 - - -	19,074	2,702	30	64	3,213	1,578	9,867	652	968
1888 - - -	18,112	2,133	25	63	3,166	1,569	9,643	622	991
1889 - - -	18,221	2,456	24	67	3,223	1,556	9,394	614	893
1890 - - -	19,548	2,541	24	81	3,374	1,611	10,364	653	900
1891 - - -	20,217	2,706	23	83	3,339	1,690	10,807	670	899
1892 - - -	18,982	2,785	21	79	3,168	1,624	9,801	651	853
1893 - - -	19,170	3,165	20	88	3,210	1,593	9,536	675	883
1894 - - -	16,594	2,257	15	71	3,015	1,462	8,427	638	709
Mean 1885–94	18,865	2,596	25	72	3,239	1,593	9,789	644	907
1895 - - -	18,727	2,822	17	79	3,169	1,678	9,433	680	849
Deaths 1895	568,997	85,720	530	2,387	96,328	51,000	286,605	20,665	25,762

*Zymotic or Specific Febrile Diseases.*—The deaths registered in the year 1895 and ascribed to this class of disease numbered 85,720, and corresponded to a rate of 2822 per million of the population. With the single exception of the year 1893, when the rate was as high as 3165 per million, the rate in 1895 exceeded that recorded in any of the ten preceding years, during which it averaged 2596. This excess appears to have been mainly due to excessive diarrhoea fatality, and to a serious increase in the mortality attributed to influenza. (Table 18.)

*Small-pox.*—The deaths from small-pox in the year 1895 numbered 223, and were equal to a rate of 7 per million, showing a considerable further decline from the rates of the two preceding years, which had been 49 and 27 per million respectively. Of the 223 persons whose deaths were caused by small-pox 33, or 15 per cent., were certified to have been vaccinated, 61, or 27 per cent., were described as unvaccinated, whilst with respect to the remaining 129, or 58 per cent., no sufficient statement as to vaccination appeared in the certificates. In addition to the above, 86 deaths were attributed to chicken-pox, and 56 deaths to "effects of vaccination." So that, in the year 1895, the total number of deaths either certainly or possibly caused by variola, and of deaths alleged to have been caused by measures taken to prevent that disease, was 365, or 12 per million of the population.

*Measles.*—The deaths from measles were 11,491 in number, and corresponded to a rate of 378 per million, as compared with 454 per million, the average rate in the ten years 1885-94. The mortality from measles in London showed a decline from 757 per million in the preceding year to 614 in 1895, but this rate, nevertheless, considerably exceeded the rate in the rest of England and Wales, which was only 339 per million, although the latter exceeded by 10 per million the rate recorded in 1894. The death-rate from measles was below 100 per million in Oxfordshire, Huntingdonshire, Wiltshire, Dorsetshire, Somersetshire, Gloucestershire, Shropshire, Rutlandshire, and the North Riding of Yorkshire. The highest rates were 534 in Northumberland, 553 in Devonshire, 604 in Essex, 614 in London, 693 in Lancashire, and 1110 in Cumberland.

*Scarlet fever.*—The deaths from scarlet fever numbered 4532, and were equal to a rate of 149 per million. This is the lowest rate on record, the nearest approaches to so low a rate having been 171 in the year 1891, 190 in 1892, and 167 in 1894. The mean rate in the ten years 1885-94 had been 220 per million. The year 1895 was the eleventh consecutive year in which the total deaths from scarlet fever in England and Wales have been fewer than 8000. Only one death from this disease was registered during 1895 either in Huntingdonshire or in Rutlandshire, and the rate was below 30 per million in Sussex, Hertfordshire, Cambridgeshire, Suffolk, and Wiltshire; the highest county rates were 221 in Northumberland, 228 in Warwickshire, 231 in Staffordshire, 243 in the North Riding of Yorkshire, 246 in Lancashire, and 264 in Cumberland.

Of the 829 deaths from scarlet fever of London residents which, during 1895, were registered either in London or in the Metropolitan Asylum Hospitals situated outside London, 571, or 69 per cent., occurred in public institutions, against 69, 58, and 75 per cent. respectively in the three years immediately preceding. The reports of the Metropolitan Asylums Board show that the fatality among scarlet fever cases treated in their hospitals was equal to 5.45 per cent., showing a further decline from the rates recorded in recent years. In the ten preceding years 1885-94 the rate of fatality had averaged 8.06 per cent.

*Enteric (Typhoid) Fever.*—During the year under notice 5,326 deaths were attributed to enteric fever, being equal to a rate of 175 per million. Although this exceeded the low rate recorded in 1894, it was slightly

below the average rate in the preceding ten years, which had been 176 per million. Whilst the mortality in 1895 from enteric fever in England and Wales exceeded that of the previous year by ten per cent., it was chiefly in the Yorkshire, Northern, and Welsh registration divisions that the increase was most marked, for in these parts of the country the increase on the 1894 rates was equal to 28 per cent., whilst in the remainder of the country it was only 3 per cent. If a line be drawn across England from east to west, south of the counties of Lincoln, Leicester, Stafford, and Salop, it is found that, with the exceptions of Derbyshire, Cumberland, and Westmorland, in all the English counties north of this line the death-rate from enteric fever exceeded the general English rate; while, with the single exception of Essex, in every county south of the line the enteric fever death-rate was below this rate. In North Wales the rate was below the general English rate, while it showed an excess in South Wales and in Monmouthshire. The ten registration counties with the highest enteric fever death-rates in 1895 were South Wales 185, Cheshire 186, Essex and the West Riding of Yorkshire 202, Monmouthshire 204, Nottinghamshire 207, the East Riding of Yorkshire 230, Lancashire 269, Northumberland 280, the North Riding of Yorkshire 284, and Durham 423. Of these ten counties all, except three, namely, Cheshire, Monmouthshire, and the East Riding of Yorkshire, had shown the highest rates in the year 1894 also.

\* The Newcastle Hospital for infectious diseases is situated in Tynemouth district; for the purposes of this table deaths from enteric fever of Newcastle residents have been transferred to Newcastle-on-Tyne district.

In the reports for the years 1890 to 1893 special mention was made of the prevalence of enteric fever in a group of 18 registration districts, comprising nearly the whole of Durham and the adjacent parts of Northumberland and Yorkshire. For several years past the mortality from enteric fever in this area taken as a whole has been greater than that in the remainder of the country; and the rate has sometimes been more than double that of England and Wales. In 1894, although the mortality stood at 301 per million, against 159 for England and Wales, and was very excessive in a few of the districts, there was a marked general decline. In 1895, however, the rate in the whole area rose to 397, against 175 for England and Wales, no less than 14 of the 18 districts showing an increase on the figures of the previous year. The death-rate in each of the districts in the years 1890-95 is shown in Table D. on the preceding page.

*Diphtheria.*—7,895 deaths were referred to diphtheria during the year 1895. These deaths were equal to a rate of 260 per million, showing a further decline from the rates of the two preceding years, which had been 318 and 292 respectively. With these two exceptions, however, the 1895 rate was higher than that in any year since 1864. The average rate in the ten years 1885-94 had been 202 per million. Taking diphtheria and "croup" together, the deaths in 1895 amounted to 9542, or 314 per million persons living, against 389 and 350 per million in 1893 and 1894. In the year 1895 the rate of diphtheria mortality in 36 counties was lower than the mean rate in England and Wales; the nine counties with highest rates being Sussex 267, Buckinghamshire 274, Cheshire 277, Kent 308, North Wales 312, Warwickshire 326, Middlesex 334, London 536, and Essex 595. Of these nine counties, four were among the counties with highest rates in each of the two preceding years also. The rate in these nine counties was equal to 437 per million, while in the remaining 36 counties of England and Wales it did not exceed 179 per million.

*Whooping-cough.*—The deaths from whooping-cough numbered 9,594, and corresponded to a rate of 316 per million living; this rate is the lowest on record, the nearest approaches to so low a rate having been 342 in the year 1893, and 393 in the year 1883. The average rate in the ten years 1885-94 was 437 per million.

In ten counties the rate of mortality from this disease exceeded the general English rate. In Huntingdonshire, Cornwall, Worcestershire, Rutlandshire, and Durham the rates in 1895 severally exceeded the average rates in the ten preceding years.

*Influenza.*—The deaths referred to influenza, which had been 16,686, 15,737, 9,669, and 6,625 in the four preceding years, again rose to 12,880 in 1895, and were equal to a rate of 424 per million of the population. Dividing the country into three sections, as in previous reports, the highest mortality from influenza during 1895 was registered in London, where it was equal to 483 per million, the southern counties coming next with a rate of 473, whilst in the northern counties the rate was 385. Taking the year 1889 as a standard for comparison,\* it appears that in the year 1895 there was an increase in the combined mortality from influenza and respiratory disease in the metropolitan area equal to 26·2 per cent., and in the southern counties equal to 27·4 per cent., whilst in the northern counties the excess was only 9·1 per cent.

---

\* The year 1889 was adopted in the Fifty-fifth Annual Report, p. xv, as a standard for comparison, both because it may be regarded as a year of approximately normal mortality, and because it immediately preceded the first outbreak of influenza.

On reference to the last column of the subjoined Table (E.) it will be seen that during the six years, 1890-95, the excess has been greatest on the average in the southern group of counties, where it was 36 per cent. In the metropolitan area it was 31 per cent., and in the northern group 17 per cent. only.

TABLE E.—MORTALITY per Million living, attributed to INFLUENZA and DISEASES of the RESPIRATORY ORGANS, in the Seven Years 1889-95.

	Rate per Million living in each Year.								The rate in 1890-95 to that in 1889, the latter taken as 100.
	1889.	1890.	1891.	1892.	1893.	1894.	1895.	Mean 1890-5.	
London (Division I.) - -	3683	5059	5851	5062	4914	3507	4647	4840	131
Southern Counties (Divisions II.-V.)	2445	3168	3687	4160	2955	2794	3115	3313	136
Northern Counties (Divisions VI.-XI.)	3844	4819	5678	4516	4170	3496	4192	4479	117
England and Wales -	3425	4386	5139	4494	3982	3298	3950	4200	123

*Diarrhæal diseases* (diarrhœa, dysentery, and cholera) accounted for 27,392 deaths during the year 1895, these deaths being equal to a rate of 902 per million living, or not less than 44 per cent. in excess of the average rate in the ten years immediately preceding. In Herefordshire, Wiltshire, Rutlandshire, and Dorsetshire, the diarrhœa rates ranged from 243 to 305 per million; whilst they reached 1264 per million in the West Riding of Yorkshire, 1297 in Leicestershire, 1385 in Lancashire, and 1820 in the East Riding of Yorkshire.

*Hydrophobia* was the certified cause of death in 20 instances (17 males and 3 females) during the year. This is the largest number recorded in any year since 1889, when the deaths numbered 30. The deaths from this disease have rapidly increased in number within the last three years. Only 4 deaths had been attributed to it in the year 1893, in the year following the deaths had increased to 13, and in the year 1895 to 20. Of these 20 deaths, 8 occurred in the West Riding of Yorkshire, 7 in Lancashire, 3 in Cheshire, one in Durham, and one in Surrey.

*Puerperal fever* caused 1849 deaths, and other accidents of childbirth 2370. These 4219 deaths were equal to a mortality of 4.57 per 1000 births, and showed a further decline from the rates in the two preceding years, which had been 6.51 and 5.36 respectively.

*Parasitic Diseases.*—The deaths returned as due to parasitic diseases numbered 530, of which 397 were ascribed to "thrush," and the remainder to "other parasitic diseases," such as worms, hydatids, &c. With the single exception of the year 1894, the deaths from parasitic diseases were fewer in 1895 than in any previous year on record.

*Dietetic Diseases.*—The deaths referred to dietetic diseases numbered 2387, being equal to a rate of 79 per million living, and exceeding by 7 the mean rate in the ten years immediately preceding. The deaths directly ascribed to intemperance numbered 2045, and corresponded to a rate of 68 per million. This rate exceeded that of 1894, but was below the average rate in the three years preceding that year. (Tables 17-22.)

*Constitutional Diseases.*—The deaths referred to constitutional diseases in 1895 numbered 96,328, and corresponded to a rate of 3169 per million persons living, the average in the ten immediately previous years having been 3239. There was a still further increase in the mortality from cancer, which accounted for 22,945 deaths, or 755 per million of the population, which is the highest cancer death-rate on record. The deaths from phthisis numbered 42,490, and corresponded to a rate of 1398 per million. This is a slight increase on the rate of 1894, which is the lowest rate hitherto recorded. Diabetes accounted for 2265 deaths, and for a mortality equal to 75 per million of the population. This is the highest rate on record, the rates in the three years immediately preceding having been respectively 68, 70, and 68.

*Developmental Diseases.*—51,000 deaths, or 1678 per million of the population, were referred to developmental diseases in the course of the year under present notice. Old age accounted for 29,842 deaths, or 982 per million of the total population. Premature birth was returned as the cause of 17,508 deaths, or 18.98 per 1000 children born. This is the highest rate on record. With one exception, that of 1894, there has been a continuous increase in the mortality from premature birth ever since 1884. The mortality from congenital defects was equal to 3.96 per 1000 births. This rate, although slightly below that of 1894, nevertheless shows, in common with the rate from premature birth, a serious increase as compared with the average rates in recent previous quinquennial periods. (See Table F. on p. xviii.)

*Local Diseases.*—286,605 deaths were referred to local diseases during the year 1895. These deaths were equal to 50.4 per cent. of the deaths from all causes, and to 9433 per million persons living. Although this mortality considerably exceeded the very low rate of the year immediately preceding, it was, nevertheless, below the mean rate in the ten years 1885-94, which had been 9789 per million. (Table C.) The deaths from diseases of the respiratory system (exclusive of croup), numbered 105,501, and were equal to a rate of 3473 per million living, or 212 below the decennial average rate. Diseases of the nervous system, exclusive of convulsions, caused 47,744 deaths, corresponding to a rate of 1571 per million, which is 144 per million below the average. Diseases of the circulatory system caused 51,292 deaths, corresponding to a mortality of 1688 per million. This rate, although above the low rate of 1894, was considerably less than the average rate in the ten years, 1885-94. The deaths from diseases of the urinary system were 14,117 in number, and were equal to a rate of 466 per million of the population. With one exception, that of the year 1891, the rate in 1895 was higher than the rate in any of the ten preceding years, during which it averaged 448 per million.

*Violence.*—17,543 deaths, or 578 per million of the population, were referred to accident or negligence during the year 1895. This rate was higher by 27 per million than the decennial average rate. The deaths attributed to suicide numbered 2,797, and were equal to a rate of 92 per million of the population, which is the highest rate on record. To homicide, 315 deaths were referred, the rate of mortality being equal to 10 per million. In 163 of these cases the coroner's verdict was murder; in 151 cases, manslaughter; and in 1 case justifiable homicide. There were 10 executions in the course of the year.

*Ill-defined and Not-specified Causes.*—The cause of death in 25,762 cases, or 4.5 per cent. of the total deaths, was so unsatisfactorily stated as to be useless for purposes of scientific classification. The number of such

TABLE F.—PREMATURE BIRTHS AND CONGENITAL DEFECTS.—DEATHS TO 1000 BIRTHS, 1861-95.

Year.				Premature Births.	Congenital Defects.

1895	-	-	-	18·98	3·96

cases would have been larger but for the inquiries which have been sent out from this Office respecting deaths certified as due to dropsy, mortification, tumour, hæmorrhage, and other still more indefinite conditions. As a result of these inquiries, the deaths under the heading "Dropsy," which originally stood at 353, were reduced to 183; similarly the deaths from "Mortification" were reduced from 139 to 37, those from "Tumour" from 387 to 135, and those from "Hæmorrhage" from 208 to 135. Following the course adopted in previous years, inquiries were also made during the year 1895 respecting a large number of death-certificates, in which there was room for doubt whether the primary cause of death had been explicitly shown. Among the principal results of these inquiries was the transference of 670 cases from vague headings, such as tumour, or disease of the brain, liver, ovaries, uterus, &c., to cancer or malignant disease; of

152 cases, from such headings as pyæmia, peritonitis, pelvic cellulitis, &c., to puerperal fever; and of 91 cases, most of which had been originally described as from "tumour of the brain," to syphilis. With the view of ascertaining to what extent the mortality ascribed to cancer has been affected by the inclusion of all cases of "Sarcoma" under this heading, inquiries were also sent to medical men who had certified deaths as due to sarcoma (excepting, of course, where malignancy was either stated or implied). The result of these inquiries shows that, of 811 such deaths, only 13 are believed to have been caused by non-malignant tumours. Similar inquiries made in 1894 to determine the number of deaths from "polyuria" that had been returned as diabetes, also yielded negative results. The information thus obtained is useful as showing that, for the purpose of death statistics, no serious error arises from regarding all deaths from sarcoma as malignant, and all deaths attributed to diabetes as being really such. Further inquiries with respect to these two diseases have, therefore, been discontinued. Inquiries made in 1895 respecting deaths from "stricture of œsophagus" were abundantly justified by the information that, out of 156 cases, not fewer than 108 were due to malignant disease and 4 to syphilis. The total number of replies received in the year 1895 was 5255, of which 3015 contained information which led to the more accurate classification of death causes.

This system of inquiry has led in the course of years to a decrease in the use of certain vague and unscientific terms in certificates of death. In 1885, for example, 1001 letters respecting cases of "dropsy" elicited the information that 470 deaths were due to diseases of the circulatory, and 191 to diseases of the urinary, organs; in 1895 only 196 such letters were necessary, and the replies showed that 102 of the cases were due to circulatory, and 35 to urinary, disease. Another vague term which is happily disappearing from use is "typhoid pneumonia." In 1885, 78 inquiries respecting deaths thus certified resulted in the final classification of 46 of them to pneumonia, 29 to enteric fever, and 3 to other causes. In 1895 the total number was reduced to 16, in 7 of which the term was explained as signifying "pneumonia with typhoid symptoms," in 7 others as "enteric" fever complicated by pneumonia," while in the remaining two it only indicated symptoms which had supervened in the course of other diseases. Equal improvement in certification since 1885 has not, however, marked all the subjects of inquiry. For example, 357 inquiries as to pyæmia, septicæmia, or "blood poisoning," were made in 1885, with the result that 59 cases were transferred to puerperal fever, 97 to other definite diseases, and 44 to the effects of violence, while 157 remained under the heading Pyæmia; in 1895, 292 similar inquiries were made, with the result that 52 cases were transferred to puerperal fever, 106 to other definite diseases, and 33 to the effects of violence, while 101 remained under the heading Pyæmia. The inquiries respecting peritonitis as a cause of death among women of child-bearing ages numbered 391 in 1885, varied between a minimum of 401 and a maximum of 558 in 1886-94, and fell to 398 in 1895. During the ten years 1885-94, 485 inquiries on the average with respect to this condition were made annually, with the result that 103 cases per annum were transferred to puerperal fever, and 140 to other definite causes, while 242, or almost exactly one-half, remained as peritonitis. The 398 inquiries in 1895 yielded 70 cases of puerperal fever, and 164 of other definite causes of death, while 164, or 41 per cent., remained as peritonitis.

A summary of 19,472 inquiries sent out in the first half of the current decennium, and of the replies thereto, has been prepared and is shown in Table G. In 12,307, or nearly two-thirds, of these cases, the classification of the cause of death was altered as a result of the inquiry. On examination of the Table it will be seen that there are very few cases in which the number of such alterations falls below half the number of inquiries sent. The value of this system of inquiry is evidenced by the frequent

appearance of certain zymotic diseases, of syphilis, of intemperance, and of cancer, in the column showing the final classification of the deaths.

TABLE G.—SUMMARY of INQUIRIES as to IMPERFECTLY SPECIFIED CAUSES of DEATH in the FIVE YEARS 1891-95.

Subject of Inquiry.	No. of Replies received.	No. of Cases in which the Classification was corrected.	Some of the principal Headings to which the Deaths were transferred as a result of Inquiry.
Pyæmia, Septicæmia, Blood Poisoning, &c.	1,716	1,072	Measles 2, Scarlet Fever 12, Whooping Cough 1, Diphtheria 8, Enteric Fever 5, Continued Fever 2, Vaccination 15, Venereal Diseases 50, Puerperal Fever 295, Intemperance 10, Cancer 10, Tubercular Diseases 31, Dis. of Organs of Locomotion 64, Dis. of Integumentary System 62, Violence 286.
Peritonitis . . . . .	2,391	1,240	Puerperal Fever 493, Scarlet Fever 2, Influenza 32, Continued Fever 1, Enteric Fever 17, Venereal Dis. 26, Intemperance 13, Tabes Mesenterica 89, Definite Dis. of Digestive System 302, Dis. of Organs of Generation 154, Accidents of Childbirth 23, Violence 30.
Metritis . . . . .	94	65	Puerperal Fever 57, Syphilis 1.
Pelvic Cellulitis . . . . .	140	85	Puerperal Fever 38, Accidents of Childbirth 34, Venereal Dis. 2, Hydatid Dis. 1.
Convulsions over 10 years of age.	297	275	Scarlet Fever 1, Intemperance 5, Epilepsy 101, Uremia 53, Puerperal Convulsions 42.
Hæmorrhage . . . . .	377	332	Intemperance 3, Cancer 24, Phthisis 12, Purpura Hæmorrhagica 17, Dis. of Circulatory System 33, Dis. of Digestive System 51, Dis. of Organs of Generation 37, Accidents of Childbirth 80, Navel Hæmorrhage 29.
"Tumour" (organ stated, but no statement as to malignancy).	4,279	2,319	Cancer 1623, Syphilis 334, Tubercular Meningitis 280.
"Tumour" (no statement as to organ affected or as to malignancy).	1,585	1,263	Cancer 920, Syphilis 11, Aneurism 19, Ovarian Dis. 96, Dis. of Uterus 66.
Sarcoma* (provisionally classed to Cancer).	811	13	13 returned as "non-malignant," and classed to organ affected.
Glioma† (provisionally classed to Cancer).	49	11	11 returned as "non-malignant," and classed to organ affected.
Stricture of Œsophagus* . . . . .	156	113	Cancer 108, Syphilis 4, Drinking Ammonia 1.
Dropsy . . . . .	1,037	941	Scarlet Fever 10, Syphilis 8, Intemperance 18, Dis. of Circulatory System 556, Bright's Dis. 202, Dis. of Liver 39.
Membranous Laryngitis* (provisionally classed to Diphtheria).	98	35	Laryngitis 19, Croup 15.
Typhoid Pneumonia (provisionally classed to Pneumonia).	151	85	Enteric Fever 77, Intemperance 1.
Pyrexia, Hyperpyrexia ‡ . . . . .	57	45	Scarlet Fever 9, Enteric Fever 3, Influenza 7, Puerperal Fever 2, Intemperance 3.
Hæmoptysis, with Dis. of the Respiratory System § (provisionally classed to Phthisis).	321	221	Syphilis 1, Intemperance 7, Dis. of Circulatory System 22, Bronchitis 102, Pneumonia 42, Other Dis. of Respiratory System 37.

\* For the year 1895 only.

† For the years 1893-95 only.

‡ For the years 1892-95 only.

§ For the years 1894 and 1895.

Subject of Inquiry.	No. of Replies received.	No. of Cases in which the Classification was corrected.	Some of the principal Headings to which the Deaths were transferred as a result of Inquiry.
Abscess of Lung* (provisionally classed to Phthisis).	84	52	Measles 1, Intemperance 3, Pneumonia 33, Other Dis. of Respiratory System 11.
Tabes (provisionally classed to Atrophy).	79	50	Tabes Mesenterica 43.
"Diabetes"	705	11	Dis. of Urinary System (Polyuria) 3, Violence 3, Other Definite Causes 5.
Lardaceous and Amyloid Diseases† (no statement as to organ or part affected).	58	50	Syphilis 4, Dis. of Liver 21, Dis. of Organs of Locomotion 6.
Syncope, Heart Failure §	611	516	Diphtheria 2, Enteric Fever 4, Syphilis 2, Intemperance 50, Dis. of Nervous System 18, Valvular Dis. of Heart 67, Other Definite Dis. of Circulatory System 242, Dis. of Respiratory System 26, Violence 7.
Dyspepsia §	181	107	Want of Breast Milk 37, Intemperance 9, Cancer 6, Definite Dis. of Digestive System 42.
Tympanites ‡	13	9	Cancer 1, Tubercular Dis. 1, Definite Dis. of Digestive System 4.
Fracture	867	813	Mines and Quarries 56, Vehicles and Railways 73, Falls 631, Other Definite Forms of Accident 54.
Other Forms of Violence	787	645	Mines and Quarries 70, Vehicles and Railways 83, Falls 230, Weapons and Implements 53, Other Definite Forms of Accident 182, Suicide 1.
Tetanus	166	142	Idiopathic Tetanus 67, Syphilis 2, Machinery 4, Weapons and Implements 14, Falls 4, Other Definite Forms of Violence 23.
Operation	197	181	Measles 1, Diphtheria 4, Venereal Dis. 5, Tubercular Dis. 23, Cancer 45, Congenital Defects 11, Dis. of Organs of Generation 23, Violence 11.
Atrophy, Debility, Marasmus (ages 10-55).	628	475	Scarlet Fever 1, Enteric Fever 2, Influenza 11, Syphilis 16, Intemperance 39, Cancer 15, Tubercular Dis. 78, General Paralysis of Insane 50, Other Dis. of Nervous System 55, Dis. of Respiratory System 34, Dis. of Digestive System 36.
Gangrene or Mortification	621	571	Scarlet Fever 1, Diphtheria 1, Venereal Dis. 8, Intemperance 13, Gout 5, Senile Gangrene 153, Other Dis. of Circulatory System 217, Violence 75.
"Natural Causes" ‡	61	52	Continued Fever 1, Syphilis 1, Gout 1, Premature Birth 3, Old Age 9, Atrophy, Debility 10, Dis. of Nervous System 7, Dis. of Circulatory System 4.
Other Causes and Conditions	853	528	Small Pox 1, Measles 3, Scarlet Fever 4, Typhus 1, Whooping Cough 4, Diphtheria 3, Continued Fever 2, Enteric Fever 17, Venereal Dis. 26, Intemperance 18, Cancer 26, Tubercular Dis. 22.
Total	19,472	12,307	

\* For the year 1895 only.

† For the years 1892-95 only.  
|| For the year 1894 only.

§ For the years 1894 and 1895.

Among the 858 miscellaneous causes and conditions in the last heading of Table G., the terms atrophy of thyroid gland, cachexia, congenital disease, congenital skin disease, constitutional disease, septic disease, pustules, sloughing soft palate, specific roseola, surgical fever, V. erythema, visceral degeneration, and "wasting" were found to have been used as euphemisms denoting syphilis; abdominal disease, bowel disease, cachexia, disease of breast, disease of face, enlarged glands, "exhaustion," organic disease, suppurating glands, and throat disease as synonyms for cancer; while alcoholism had been variously disguised as "delirium," degeneration of organs, diseased viscera, dysphagia, inflammation of mucous membranes, "mania," organic pseudo general paralysis, toxic palsy, and toxic insanity.

Table H. shows the results in another way. The numbers of deaths which would originally have appeared under certain headings are shown, in relation both with the numbers added to or subtracted from those headings as a result of inquiry, and with the numbers as they appear in the Annual Reports after correction. The figures show an addition of 8.4 per cent. to puerperal fever, 4.5 per cent. to venereal diseases, 2.6 per cent. to cancer, and 2.0 per cent. to intemperance, and a reduction of 65 per cent. from tumour, 46 per cent. from dropsy, 39 per cent. from pyæmia, and 32 per cent. from hæmorrhage.

TABLE H.—Some of the PRINCIPAL HEADINGS affected by the MEDICAL INQUIRIES, in the FIVE YEARS 1891-95.

Heading.	No. of Deaths before Correction for Medical Inquiries.	No. of Deaths added or subtracted.	Total Deaths after Correction.
Scarlet Fever - - -	27,082	+ 41	27,123
Enteric Fever - - -	25,711	+ 109	25,820
Venereal Diseases - - -	11,366	+ 508	11,874
Pyæmia, Septicæmia - - -	2,724	- 1,059	1,665
Puerperal Fever - - -	10,483	+ 885	11,368
Intemperance - - -	9,895	+ 193	10,088
Cancer - - -	103,319	+ 2,653	105,972
Tabes Mesenterica - - -	35,282	+ 172	35,454
Tubercular Meningitis - - -	33,423	+ 264	33,687
Phthisis (1894 and 1895 only) - - -	84,331	- 204	84,127
Insanity - - -	15,009	+ 69	15,078
Epilepsy - - -	13,941	+ 114	14,055
Valvular Dis. of Heart - - -	46,403	+ 124	46,527
Syncope (1894 and 1895 only) - - -	3,908	- 512	3,396
Senile Gangrene - - -	6,665	+ 163	6,828
Other Dis. of Circulatory System - - -	185,271	+ 1,124	186,395
Dyspepsia (1895 only) - - -	464	- 102	362
Diseases of Stomach - - -	21,416	+ 214	21,630
Peritonitis (Females only) - - -	6,268	- 1,237	5,031
Diseases of Liver - - -	39,961	+ 148	40,109
Other Dis. of Digestive System - - -	89,204	+ 341	89,545
Bright's Disease - - -	38,054	+ 225	38,279
Dis. of Organs of Generation - - -	6,935	+ 300	7,235
Dis. of Parturition - - -	13,393	+ 164	13,557
Dropsy - - -	2,043	- 941	1,102
Mortification - - -	787	- 569	218
Tumour - - -	1,927	- 1,261	666
Hæmorrhage - - -	1,035	- 332	703
"Not specified" - - -	10,866	- 166	10,700

*Certification of Causes of Death.*—Of the 568,997 deaths registered during the year 1895, the causes of 521,663 or 91·68 per cent. were certified by registered medical practitioners, and the causes of 34,161 or 6·00 per cent. by coroners after inquest, while the causes of the remaining 13,173 deaths or 2·32 per cent. were not certified. The 13,173 uncertified cases included the deaths of infants who had been attended only by midwives, and those of persons who had been attended by unregistered practitioners, as well as those of persons who had received no medical attendance of any kind. In registration counties the proportions per cent. of uncertified deaths ranged from 0·71 in London, 0·88 in Wiltshire, 0·91 in Monmouthshire, and 1·10 in Middlesex, to 4·13 in Warwickshire, 4·28 in Dorsetshire, 4·46 in Kent, 4·58 in Huntingdonshire, 4·78 in North Wales, and 5·88 in Herefordshire. The proportions of uncertified deaths differ widely at various ages, as is shown by the following figures:—

Age.	Uncertified Deaths.	
	Number.	In every 100 Deaths.
Under 3 months - -	4,390	6·27
3 months—1 year - -	1,945	2·49
1—5 - - -	1,189	1·66
5—15 - - -	309	1·38
15—35 - - -	469	0·85
35—55 - - -	1,168	1·44
55 and upwards - -	3,703	1·94
ALL AGES - -	13,173	2·32

Thus 4,390 or just one third of the uncertified deaths were deaths of infants under three months of age, and these 4,390 deaths were 6·27 per cent., or about one in sixteen of all the deaths under three months of age. The proportion of uncertified deaths falls abruptly to 2·49 per cent. at three months and under one year of age, and then more steadily to its minimum (0·85 per cent.) at 15–35 years of age, after which it gradually rises as age advances.

In London and in Middlesex, less than 2·5 per cent. of the deaths of infants under three months old were uncertified; but in eight counties the proportions were over 10 per cent., reaching 10·02 in Gloucestershire, 11·68 in Norfolk, 11·92 in Shropshire, 12·09 in Dorsetshire, 13·31 in Bedfordshire, 13·89 in Huntingdonshire, 16·90 in North Wales, and 19·69 in Herefordshire. It may be remarked that the proportion of illegitimate to total births is high in most of these eight counties; in all of them, however, and notably in Dorsetshire, Shropshire, and Herefordshire, the mortality of infants under one year of age is below that prevailing in the country as a whole.

TABLE J.—UNCERTIFIED DEATHS IN COUNTIES, 1881-95.

	Average Percentage of Uncertified Deaths to Total Deaths.			Ratio of 1891-95 to 1881-85, the latter being taken as 100.*
	Five Years 1881-85.	Five Years 1886-90.	Five Years 1891-95.	
ENGLAND AND WALES	3·8	3·1	2·5	67

North Riding	3·4	2·3	2·1	60
Durham	6·6	5·1	3·9	59
Northumberland	3·8	3·0	1·9	51
Cumberland	6·0	3·9	2·7	45
Westmorland	5·3	4·5	4·6	86
Monmouthshire	2·2	1·9	1·0	46
South Wales	9·5	6·3	3·9	41
North Wales	10·9	7·9	5·5	50

\* The ratio is based on the averages of the respective quinquennia calculated to two places of decimals.

Table J shows, for three successive quinquennial periods, the percentage of uncertified deaths to total deaths, in each registration county in England and Wales. From the last column in this table it appears that in 39 of the counties the proportion of uncertified deaths has decreased in 1891-95 as compared with 1881-85. In Northamptonshire the proportion has remained nearly constant throughout the three quinquennia, whilst in five counties, namely, Berkshire, Essex, Wiltshire, Warwickshire, and Leicestershire, the proportion has increased. The great increase in the proportion of uncertified deaths registered in the county of Warwickshire is due to the fact that in Birmingham, which contains a large share of the population of the county, the proportion of uncertified deaths was nearly doubled in the year 1892, and in the four years 1892-95 it averaged 5.0 per cent. of the total deaths, against an average of 2.7 per cent. in the four preceding years. This great increase of uncertified deaths is sufficiently accounted for by a practically equivalent decrease in the number of inquests.

#### OFFENCES AGAINST THE REGISTRATION ACTS.

In 1895, 13 persons, on prosecution by order of the Registrar-General, were convicted of different offences against the Registration Acts, as under :—

For giving false information for registration	- - -	7
For making and giving a false certificate of cause of death	- - - - -	1
For making and giving a false certificate of birth	- - -	1
For making false certificates or declarations of still-birth	- - - - -	3
For burying without authority and without notice to the Registrar	- - - - -	1
		<hr/>
		13
		<hr/>

#### PROGRESS OF REGISTRATION.

The names in the alphabetical indexes of births, deaths, and marriages recorded in the national registers of England and Wales were increased in the year 1895 by 1,947,696, this addition raising the aggregate number of names in the indexes, which at the end of 1895 embraced a period of 58½ years, to 90,843,167.

#### SEARCHES AND CERTIFICATES.

Besides the certified copies of the registers of births, deaths, and marriages kept in England and Wales pursuant to the Registration Acts of 1836 and 1874, a large number of other registers and records are deposited in the custody of the Registrar-General under statutory and other arrangements. A list of all these various registers and records will be found on pages xxix-xxxii of this report; and searches may be made in any of them and certificates granted of entries found, on payment of the prescribed fees.

During the 52 weeks ending 28th December 1895 the total number of searches was 53,289, and certificates were issued to the number of 35,727 : the total amount received in fees for searches and certificates was 7,200*l.* 12*s.* 6*d.*

The greater part of these searches and certificates related to the births, deaths, and marriages registered in England and Wales under the Registration Acts of 1836 and 1874; but 543 searches and 258 certificates were granted in respect of the 7,000 volumes of non-parochial registers and records deposited with the Registrar-General under the provisions of the Non-Parochial Registers Acts of 1840 and 1858; and 175 searches and

17 certificates had reference to various miscellaneous registers (home and foreign) which from time to time have been deposited with the Registrar-General for safe custody, but have no statutory authority.

The following comparison will show the extent to which the registers and records at the General Register Office are being increasingly referred to by the public for legal evidence of births, deaths, and marriages occurring not only in England and Wales, but also on board ship and amongst British subjects abroad.

Years.	Total Searches.	General Searches.	Certificates Issued.	Amount Received.
1866 (complete year) - -	12,135	2	10,017	£ s. d. 1,860 15 6
1875 (52 weeks) - - -	26,337	23	20,282	3,881 2 0
1885 (52 weeks) - - -	36,380	34	27,682	5,311 11 0
1895 (52 weeks) - - -	53,289	74	35,727	7,200 12 6

The general searches are included with the total searches in the foregoing statement: their increase is remarkable. A "general search" costs 1*l.*, and it carries the right of the searcher to examine the indexes during any number of successive hours not exceeding six, without being required to specify the object of the search, that is to say, without being limited to any particular name or date. These general searches are chiefly required by lawyers, but not a few of them are taken up by private individuals, either for purely literary purposes or with the hope of tracing connexion with families or property. Their increase is accounted for by the constant growth of the material available for investigation.

The large collection of non-parochial registers and records in this Office extends generally over a period ranging from the middle of the seventeenth century down to the passing of the Registration Acts in 1836; but some of the Records of the Society of Friends go back as far as 1578, and those of the foreign Protestant churches in England in some few cases to 1567. The following statement shows that searches in these records are decreasing, as the period to which they relate recedes into the distant past.

Years.	Searches.	Certificates.
1866	1153	862
1875	928	642
1885	712	517
1895	543	258

In addition to the applications for searches made personally in the search room of this Office daily, every morning's post brings letters from inquirers, not only in the provinces, but on the continent and in distant parts of the world. Ten thousand two hundred and sixty-five of such letters were received during 1895, as compared with 6700 in 1887.

In a large proportion of these cases the inquiry is of so vague a character, or the information given so insufficient, that the applicants have to be communicated with before any search can be undertaken, but in the end the object of the great majority of them is attained. A correspondence of this nature imposes a very heavy and increasing burden upon the Department, which is under no statutory obligation whatever to attend to any but *personal* applicants; these latter are increasing daily, and they have the

first claim upon the assistance of the search-room attendants in making their searches in the indexes and afterwards in the inspection of the entries required to be seen.

The wholly disproportionate amount of time involved in making a search from the commonly defective particulars given in a letter makes it more and more difficult to cope with a large and growing correspondence without seriously inconveniencing the public who attend personally at this Office.

#### MORTALITY IN THE ARMY.\*

The average strength of the Army at home and abroad in 1895 was 220,309, and the deaths were 1839, the rate of mortality thus being 8·3 per 1000, against 8·3 and 8·5 in the preceding two years. The mortality in the Army abroad was 12·0 per 1000, against an average of 12·3 per 1000 in the three years 1892-94; while that in the Army at home was 4·6 per 1000, against an average of 4·8 per 1000 in the same three years. (Table 33.)

#### MORTALITY IN THE NAVY.†

The average force afloat in 1895 was 67,960. The deaths were 449, being in the proportion of 6·61 per 1000 of the strength. Of the 449 deaths, 313 were due to disease, and 136 to violence; the death-rate from disease was therefore 4·61 per 1000, and that from violence 2·00 per 1000. Of the 136 deaths from violence, 96 resulted from drowning, 2 from heatstroke, 27 from other accidental causes, and 11 from suicide.

#### BIRTHS AND DEATHS OF BRITISH SUBJECTS AT SEA.

*Marine Register Book.*—In accordance with the Births and Deaths Registration Act of 1874 and the Merchant Shipping Act of 1894, Commanding Officers of Ships trading to or from British Ports are required, under penalty, to transmit returns of all births and deaths occurring on board their ships to the Registrar-General of Shipping and Seamen, who furnishes certified copies of such returns to the Registrars-General of England, Scotland, and Ireland. Similar returns are furnished by persons having charge of Her Majesty's Ships directly to the Registrars-General of Births and Deaths. These returns of births and deaths at sea constitute the "Marine Register Book." So far as can be judged by the entries, which are not always very precise, the births in the year 1895 included 22, and the deaths 1087, persons of English origin, while 8 and 116 others respectively were indefinitely described as of "British" origin.

*Mercantile Marine.*—The Registrar-General of Shipping and Seamen reports that the number of masters and seamen afloat during the year 1895 in vessels belonging to the mercantile marine of the United Kingdom (including the islands in the British seas), and registered under the Merchant Shipping Acts, was 240,486, being 28 more than in the preceding year. The reported deaths numbered 3579, showing a rate of 14·8 per 1000 of the strength. This rate was 1·1 per 1000 above the mean rate in the five years 1890-94. (Table 35.)

Among *passengers* on board merchant vessels at sea 60 births and 365 deaths were reported in 1895; the births were 5, and the deaths 31, above the numbers recorded in the preceding year. (Table 36.)

\* Based upon returns furnished by the Commander-in-Chief.

† Based upon returns furnished by the Director-General of the Medical Department of the Navy.

## INTERNATIONAL VITAL STATISTICS.

In Tables 43-60 will be found international statistics concerning the marriages, births, and deaths in most of the European States.

A comparison of the figures in these tables shows that the mortality in Austria, the German Empire, Prussia, the Netherlands, and Italy, was practically the same in 1895 as it had been in 1894; whilst the death-rates in Denmark, in Norway, in Hungary, and in Switzerland showed a decrease, and in France and in Belgium an increase.

I have the honour to be,

Sir,

Your faithful Servant,

BRYDGES P. HENNIKER,

*General Register Office, Somerset House,  
10th December, 1896.*

*Registrar-General.*

---

## REGISTERS AND RECORDS

OF WHICH

THE ORIGINALS OR CERTIFIED COPIES ARE DEPOSITED IN THE  
CUSTODY OF THE REGISTRAR-GENERAL,

GENERAL REGISTER OFFICE, SOMERSET HOUSE, LONDON, W.C.

Searches and Certificates are granted between the hours of 10 and 4 daily (except on Sundays, Christmas Day, and Good Friday), on payment of the Statutory Fees.

A "General Search" means a Search in the Indexes during any number of successive hours not exceeding six, without stating the object of the Search; and a "Particular Search" means a Search in the Indexes over any period not exceeding five years, for any given Entry. (37 & 38 Vict. c. 88. s. 42.)

The Statutory Fees (6 & 7 Will. 4. c. 86. s. 37) are:—

	£	s.	d.
For a General Search	-	1	0
„ Particular Search	-	0	1
„ Certified Copy	-	0	2
Inland Revenue Stamp	-	0	1

# I.—REGISTERS AND RECORDS OF WHICH CERTIFIED COPIES UNDER SEAL ARE ISSUED PURSUANT TO VARIOUS ACTS OF PARLIAMENT.

By the Act 6 & 7 Will. 4, c. 86. sec. 38, *every Certificate sealed or stamped with the Seal of the General Register Office is to be received as evidence of the Birth, Death, or Marriage to which the same relates, without any further or other proof of the Entry.*

## 1. Registers made pursuant to Registration Acts 1836-74:

- (a.) REGISTERS OF BIRTHS AND DEATHS registered in ENGLAND and WALES on and after 1st July 1837.
- (b.) REGISTERS OF MARRIAGES registered in ENGLAND and WALES on and after 1st July 1837, after Solemnization in Churches of the Church of England, in Registered Roman Catholic and Dissenting Places of Worship, and in District Register Offices; also amongst Quakers and Jews.

*The General Indexes of Births, Deaths, and Marriages are completed about Nine to Twelve Months after the Dates of Registration. Unindexed Registers which are in the Office may, however, be searched under special conditions.*

## 2. Register of Births and Deaths at Sea. ("Marine Register Book.")

- (a.) Certificates of BIRTHS of ENGLISH CHILDREN and of DEATHS of ENGLISH SUBJECTS on board BRITISH VESSELS, sent to the Registrar-General by Captains, Commanding Officers, or Masters, from 1st July 1837 to 31st December 1874 (6 & 7 Will. 4. c. 86. ss. 21 and 26).
- (b.) Returns of BIRTHS AND DEATHS on board BRITISH VESSELS, and also on board other than British Vessels carrying passengers to or from any Port in the United Kingdom, received by the Registrar-General from the Registrar-General of Shipping and Seamen since 1st January 1875 (37 & 38 Vict. c. 88. s. 37; 57 & 58 Vict. c. 60. ss. 254 and 339).
- (c.) Returns of BIRTHS AND DEATHS on board H.M. SHIPS since 1st July 1837 (6 & 7 Will. 4. c. 86. ss. 21 and 26; 37 and 38 Vict. c. 88. s. 37).

*These Returns relate chiefly to persons of English Nationality, but they include also Entries relating to Persons of other than English, Scotch, or Irish Nationality.*

## 3. Non-Parochial Registers and Records:

- (a.) Registers and Records of Births and Baptisms, Deaths and Burials, and (in some few instances only) of Marriages, kept by the GENERAL BODIES and CONGREGATIONS of NONCONFORMISTS in ENGLAND and WALES. This is a large series of Records, and extends from 1642 to 1858.

- (b.) Register kept at DR. WILLIAMS' LIBRARY, Red Cross Street, consisting of (1) a Register of Births relating to Protestant Dissenters of the Three Denominations throughout the country, commenced in 1742 and continued up to 31st December 1837; (2) Seventeen Registers of Births, Baptisms, and Burials, deposited in Dr. Williams' Library by the representatives of deceased Ministers of Congregations in London, Kingston-on-Thames, Chalfont-St.-Giles, Hinckley, Romsey, Northampton, and Mortlake, and extending from 1698 to 1833.
- (c.) Register of Births and Baptisms kept by the WESLEYAN METHODISTS (independently of their Congregational Registers) at their METROPOLITAN REGISTRY in Paternoster Row. *This Registry was established in 1818, but the entries date back to 1808 and extend down to 1838.*
- (d.) Registers of Births, Marriages, and Burials, kept by the SOCIETY OF FRIENDS (QUAKERS) throughout England and Wales. *These records extend over the years 1640 to 1837, but in a few exceptional cases the dates go back to 1578 and onwards to 1840.*
- (e.) Registers of Births, Baptisms, Marriages, Deaths and Burials kept by FRENCH and other FOREIGN PROTESTANT CHURCHES in England from 1567 to 1857.
- (f.) Registers kept at GREENWICH HOSPITAL, of Marriages between 1724 and 1754, of Baptisms between 1720 and 1856, and of Burials between 1705 and 1857.
- (g.) Registers kept at CHELSEA HOSPITAL, of Marriages between 1691 and 1765, of Baptisms between 1691 and 1812, and of Burials between 1692 and 1856.
- (h.) Registers kept at the FOUNDLING HOSPITAL, of Marriages in 1754, of Baptisms between 1741 and 1838, and of Burials between 1741 and 1759.
- (i.) Registers of Burials kept at BUNHILL FIELDS BURIAL GROUND from 1713 to 1854.
- (k.) Registers of Burials kept at CEMETERIES at Liverpool, Leeds, Ecclesall, and Walworth from 1819 to 1838.

*By the Acts 3 & 4 Vict. c. 92, and 21 Vict. c. 25, Extracts from these Registers stamped with the Seal of the General Register Office, are receivable in evidence in all civil cases. When Searches are required to be made, the description of Register and the Locality and the Name of the Chapel should be given.*

#### 4. Army Returns :—

##### (a.) REGIMENTAL REGISTERS :—

1. Original Registers of Births, Baptisms, Marriages, and (in a few instances only) of Deaths, kept in various Regiments of Her Majesty's Land Forces (Officers, Soldiers, and their Families) AT HOME and on FOREIGN STATIONS, from 1790 down to a recent date.
2. Certified Copies of Registers of Births, Deaths, and Marriages kept in Regiments of Her Majesty's Land Forces (Officers, Soldiers, and their Families) serving OUT OF THE UNITED KINGDOM since the passing of the Army Registration Act of 1879.

*There are also some Originals of these Certified Copies, but they are incomplete.*

##### (b.) CHAPLAINS' RETURNS :—

1. Registers of Births, Baptisms, Marriages, Deaths, and Burials kept by Army Chaplains at STATIONS ABROAD. *This series of Returns, dating from 1796, was closed in 1880, on the Army Registration Act of 1879 coming into operation.*
2. Original Registers of Births, Baptisms, Marriages, and Burials kept by Army Chaplains in the IONIAN ISLANDS between 1816 and 1864.
3. Registers of Births, Baptisms, Marriages, and Burials kept by Army Chaplains in the IONIAN ISLANDS, the KINGDOM OF NAPLES, and ELSEWHERE, between 1809 and 1863. *These Registers relate to both Military and Civilians, the former being mostly also included in the Original Registers above referred to (No. 2).*
4. Register of Baptisms and Marriages at ST. JEAN DE LUZ and TOULOUSE (France) in 1813-14, and of a Marriage at VERA (Spain) in 1813.
5. Register of Births, Baptisms, and Marriages at ANTWERP and other places in DUTCH BRABANT in 1810-15.
6. Register of Births and Baptisms in or near VALENCIENNES (France) in 1809-18, and of two Marriages in 1817.
7. Register of Baptisms, Births, Burials and Marriages at OSTEND, MARTINIQUE, and TRINIDAD in 1812-16.

8. Register of Baptisms, Marriages and Burials in GUADALOUPE and NORTH AMERICA, 1813-15.

*Certified Copies of all the above-mentioned Army Returns, whether relating to periods prior to the Army Registration Act of 1879 (42 & 43 Vict. c. 8.) coming into operation, or subsequently thereto, are given under Seal in pursuance of Section 3 of that Act. Regulations for putting the Act in force were issued by Army General Order on 1st January 1881.*

5. British Subjects Abroad:—

- (a.) Registers of Marriages of British Subjects in Foreign Countries, solemnized since July 1849, by BRITISH CONSULS or other MARRIAGE OFFICERS, under the provisions of 12 & 13 Vict. c. 68. and 55 & 56 Vict. c. 23. (1892). These are Certified Copies, but there are also some duplicate Original Registers.
- (b.) Register of Marriages solemnized in a Chapel belonging to the RUSSIA COMPANY at Moscow between 1826 and 1858 (21 & 22 Vict. c. 46.).
- (c.) Register of Marriages solemnized in the British Chapel at LISBON between 1822 and 1859 (22 & 23 Vict. c. 64.).
- (d.) Register of Marriages solemnized in the Chapel at MORRE VELHO, in Brazil between 1851 and 1867 (30 & 31 Vict. c. 93.).

6. India:—

- (a.) Registers of Marriages in INDIA solemnized since 1st January 1852, in the presence of Registrars and Licensed Ministers (14 & 15 Vict. c. 40. and Indian Act, No. 15 of 1872).

*These Registers refer to such Marriages as the Governor-General in Council considers desirable that evidence thereof should be transmitted to England.*

*Marriages solemnized by Clergymen of the Church of England are not included in these Returns. Certificates of Baptisms, Burials and Marriages of all European British Subjects in India, dating from 1698, can be obtained at the India Office, Charles Street, Westminster, S.W.*

7. Ionian Islands:—

- (a.) Registers of Marriages of BRITISH SUBJECTS solemnized between 1861 and 1864, under the provisions of 23 & 24 Vict. c. 86. *That Act was repealed in 1864 (27 & 28 Vict. c. 77.), on the relinquishment of the Protectorate by Great Britain.*

See also under ARMY RETURNS.

8. Certified Places of Worship:—

- (a.) Register of Buildings Certified to the Registrar-General as Places of Meeting for Religious Worship, under the provisions of 15 & 16 Vict. c. 36. and 18 & 19 Vict. c. 81.

II.—REGISTERS AND RECORDS DEPOSITED WITH THE REGISTRAR-GENERAL FOR SAFE CUSTODY, BUT HAVING NO STATUTORY AUTHORITY, AND WHEREOF CERTIFIED COPIES ARE NOT GIVEN UNDER SEAL BUT ARE AUTHENTICATED BY SIGNATURE ONLY.

1. "The Fleet Registers."—REGISTERS AND RECORDS OF BAPTISMS AND MARRIAGES PERFORMED AT THE UNDER-MENTIONED PLACES:—

- (a.) FLEET PRISON (1674-1756). Marriages and Baptisms.
- (b.) THE MINT and KING'S BENCH PRISON (1713-1735). Marriages and Baptisms.
- (c.) MAY FAIR CHAPEL (1728-1754). Marriages. [Three additional volumes of these Registers are in the Church of St. George, Hanover Square; they contain Marriages from February 1735 to March 1754, and Baptisms from 1740 to 1753.]

*These Records were transferred from the Bishop of London's Registry under the provisions of 3 & 4 Vict. c. 92. s. 20.*

2. Miscellaneous Home Registers and Records:—

- (a.) REGISTERS OF BAPTISMS, BURIALS, and MARRIAGES not included in the Report of either of the Non-Parochial Registers Commissions, but which have from time to time since the passing of the Act 21 & 22 Vict. c. 25., been received at the General Register Office.

- (b.) Records of Births, Baptisms, Marriages and Deaths kept at the CHAPELS ROYAL, ST. JAMES'S, WHITEHALL, and WINDSOR, between 1647 and 1709. *These were transferred from the Bishop of London's Registry, under the provisions of 3 & 4 Vict. c. 92. s. 20.*
- (c.) Licences for Marriages received from the CHAPEL ROYAL, WHITEHALL (1687-1807).
- (d.) Registers of Baptisms and Burials received from GREENWICH HOSPITAL (1848 to 1864).
- (e.) Registers of Births and Baptisms received from the BRITISH LYING-IN HOSPITAL, ENDELL STREET (1749-1868).
- (f.) Register of Births received from LUNDY ISLAND. Eleven entries only (1865-1869).

### 3. Her Majesty's Ships:—

- (a.) Register of MARRIAGES of British Subjects performed on board Her Majesty's ships by Captains or Chaplains thereof. *Entries ranging from 1842 to 1879 were received from the Bishop of London's Registry, pursuant to directions given by the Admiralty in February 1880; they consist partly of signed documents, and partly of extracts from Ships' Logs. A few similar Returns were forwarded direct to the Registrar-General between 1880 and 1889.*

### 4. Miscellaneous Foreign Registers and Records:—

- (a.) Registers of Births, Baptisms, Marriages, Deaths and Burials (1809-1853) of British Subjects in FOREIGN COUNTRIES reported by BRITISH CONSULS and CHAPLAINS prior to Act (12 & 13 Vict. c. 68.) and Foreign Office Ordinance of 1849; and some informal Records subsequent thereto.
- (b.) Certified Copies of Registers of Births and Deaths of British Subjects in FOREIGN COUNTRIES, kept by BRITISH CONSULS since 7th November 1849, and at BRITISH LEGATIONS since 19th July 1859, in accordance with Instructional Circulars issued from the Foreign Office. There are also a few duplicate Original Registers relating to the foregoing.
- (c.) Registers of Births recorded by BRITISH OFFICIALS ABROAD and certain FOREIGN GOVERNMENTS from 1831.
- (d.) Registers of Marriages solemnized by BRITISH OFFICIALS ABROAD, and a few from certain FOREIGN GOVERNMENTS, from 1826.
- (e.) Registers of Deaths of British Subjects in FOREIGN COUNTRIES recorded by various FOREIGN AUTHORITIES since 1800, and received through the Foreign Office. *These Returns are for the most part in the vernacular, and relate principally to Deaths registered by Officials of the Governments of those Countries in which the Code Napoléon forms the basis of the Common Law.*
- (f.) Registers of Births, Baptisms, Deaths, Burials and Marriages from some ENGLISH CHURCHES ABROAD.

### 5. Ionian Islands:—

- (a.) Registers of BIRTHS and BAPTISMS from 1835-1855, Registers of BURIALS from 1836-1855, and MARRIAGE CERTIFICATES from 1818-1859. These Returns include both Military and Civilians, but the Military are also included in the "Army Returns."
- (b.) Registers of BIRTHS and DEATHS from 1862 to 1864, kept in pursuance of a Proclamation issued by the Lord High Commissioner, dated 15th March 1862.

*These Documents were received into the Public Record Office from the Colonial Office in 1864, and were transferred to the Registrar-General's custody by direction of the Secretary of State for the Colonies, in July, 1870.*

---

N.B.—It must be remembered with reference to the Records in the foregoing List that the outside dates over which they extend are given, and that in many cases the facts for the intermediate periods are more or less incomplete or wanting.

---

REMARKS ON THE METEOROLOGY OF THE YEAR 1895.\*

BY JAMES GLAISHER, ESQ., F.R.S., &c.

The following remarks, both with regard to atmospheric pressure and temperature, are based on observations made near London, but they may be taken as having a general application.

*Atmospheric Pressure.*—The readings of the barometer were generally below their averages from January 1st to the 27th, being particularly so from January 13th to the 16th, the mean daily deficiency for these 4 days being 0·85 in.; and for the 27 days ending January 27th was 0·26 in.; from January 28th to February 23rd it was generally above, the mean daily excess being 0·18 in.; from February 24th to March 13th it was below, the mean daily deficiency being 0·27 in.; from March 14th to the 18th, it was above, the mean daily excess being 0·27 in.; from March 19th to the 31st it was below, being particularly so from March 25th to the 30th, the mean daily deficiency for these 6 days being 0·75 in.; and for the 13 days ending March 31st was 0·44 in.; from April 1st to the 15th it was generally above, the mean daily excess being 0·08 in.; from April 16th to the 27th it was below, the mean daily deficiency being 0·20 in.; from April 28th to May 15th it was above its average, being particularly so on the 2nd, 3rd, and 4th of May, the mean daily excess for these 3 days being 0·58 in.; and for the 18 days ending May 15th was 0·30 in.; from May 16th to the 22nd it was below, the mean daily deficiency being 0·17 in.; from May 23rd to June 26th it was generally above, the mean daily excess being 0·15 in.; from June 27th to July 2nd it was below, the mean daily deficiency being 0·22 in.; from July 3rd to the 9th it was above, the mean daily excess was 0·17 in.; from July 10th to August 13th it was generally below, the mean daily deficiency being 0·18 in.; from August 14th to September 1st it was generally above, the mean daily excess being 0·10 in.; from September 2nd to the 11th it was generally below, the mean daily deficiency was 0·06 in.; from September 12th to the 30th it was above, the mean daily excess being 0·26 in.; from October 1st to the 10th it was below, being as much as 0·59 in. and 0·63 in. below, on the 8th and 9th respectively, the mean daily deficiency for the 10 days being 0·30 in.; from October 11th to the 21st, it was above, being particularly so on October 17th and 18th, when it was as much as 0·62 in. and 0·63 in. respectively above the average, the mean daily excess for the 11 days ending October 21st being 0·33 in.; from October 22nd to November 16th it was generally below, the mean daily deficiency being 0·18 in.; from November 17th to December 4th it was generally above, the mean daily excess being 0·13 in.; and from December 5th to the 31st it was generally below its average, being as much as 0·74 in. and 0·80 in. below, on the 15th and 16th respectively, the mean daily deficiency being 0·24 in.

The highest reading of the barometer at the height of 159 feet above the sea was 30·440 ins. on May 2nd; and the lowest was 28·720 ins. on March 28th. The yearly range was 1·720 in.

*Temperature.*—The temperature of the air was below its average from January 1st to the 13th, being as much as 10°·3 and 10°·7 below on the 10th and 11th respectively, the mean daily deficiency for the 13 days being 5°·9; from January 14th to the 20th, it was above, the mean daily excess being 3°·4; from January 21st to March 9th, the weather was bitterly

\* For Meteorological Tables, see pp. cii-cvii.

cold and the temperature constantly below its average, being particularly so from February 5th to the 14th, the mean daily deficiency for these 10 days being  $16^{\circ}6$ ; and on several other days during this period it was as much as  $12^{\circ}$  and  $13^{\circ}$  below the average. The mean daily deficiency for the 48 days ending March 9th was  $6^{\circ}8$ ; from March 10th to the 28th it was above, the mean daily excess being  $4^{\circ}3$ ; from March 29th to April 7th it was below, the mean daily deficiency being  $4^{\circ}2$ ; from April 8th to May 15th it was generally above, being particularly so on the 12th, 13th, and 14th of May, when it was as much as  $13^{\circ}7$ ,  $15^{\circ}3$ , and  $12^{\circ}1$  respectively above its average; the mean daily excess for the 38 days being  $3^{\circ}9$ ; from May 16th to the 25th it was generally below, the mean daily deficiency being  $4^{\circ}1$ ; from May 26th to June 11th it was generally above, being particularly so on May 30th and June 9th, when it was as much as  $13^{\circ}8$  and  $11^{\circ}5$  respectively above the average, the mean daily excess for the 17 days ending June 11th being  $3^{\circ}9$ ; from June 12th to the 19th it was below, the mean daily deficiency being  $1^{\circ}8$ ; from June 20th to July 11th it was generally above, the mean daily excess being  $3^{\circ}0$ ; from July 12th to August 15th it was generally below, the mean daily deficiency being  $1^{\circ}5$ ; from August 16th to September 11th it was generally above, the mean daily excess being  $4^{\circ}3$ ; from September 12th to the 21st it was generally below, the mean daily deficiency being  $0^{\circ}6$ ; from September 22nd to October 1st it was above, being particularly so from September 24th to the 29th, the mean daily excess for these 6 days being  $12^{\circ}9$ ; and for the 10 days ending October 1st was  $10^{\circ}3$ ; from October 2nd to November 3rd it was generally below, being particularly so from October 24th to the 30th, the mean daily deficiency for these 7 days being  $10^{\circ}8$ ; and for the 33 days ending November 3rd, was  $3^{\circ}8$ ; from November 4th to December 18th it was generally above, being as much as  $10^{\circ}5$ ,  $10^{\circ}7$ ,  $13^{\circ}0$ , and  $11^{\circ}9$  above its average on November 6th, 7th, and 16th and December 5th respectively, the mean daily excess for the 45 days ending December 18th being  $3^{\circ}4$ ; from December 19th to the 28th it was below, the mean daily deficiency was  $3^{\circ}8$ ; and from December 28th to the 31st it was above, being  $13^{\circ}1$  in excess of the average on the 30th, the mean daily excess for the 3 days being  $10^{\circ}0$ .

The highest temperatures of the air were at Cambridge  $88^{\circ}3$ ; at the Royal Observatory  $87^{\circ}3$ ; and at Salisbury  $87^{\circ}0$ ; and the lowest were at Hereford —  $1^{\circ}6$ ; at Halifax —  $1^{\circ}0$ ; and at Carlisle  $0^{\circ}5$ .

*Rainfall.*—The fall of rain was below its average in each of the months of January, February, and March; the total fall in the three months at Greenwich was  $3.27$  ins., or  $1.68$  in. below the average. The fall of rain was also below its average in each of the months of April, May, and June; the total fall in these three months at Greenwich was  $1.91$  ins., or  $3.79$  ins. below the average. The fall of rain was above its average in July, and below in both August and September; the total fall in the three months at Greenwich was  $6.46$  ins., or  $0.83$  in. below the average. The fall of rain was below its average in October, and above in both November and December; the total fall in these three months at Greenwich was  $8.09$  ins., or  $0.97$  in. above the average.

The heaviest falls of rain at our stations were at Stonyhurst  $42.46$  ins., at Bath  $41.09$  ins., and at Truro  $40.56$  ins.

The least falls were at the Royal Observatory  $19.73$  ins., at Somerleyton  $20.41$  ins., and at Nottingham  $20.75$  ins.

The greatest number of days of rain were at Stonyhurst 198, and at Halifax and Carlisle 191.

The least number of days of rain were at Barnet 119, at Camden Square 137, and at Wolverhampton 138.

*Thunderstorms* occurred on 61 days at the different stations; of these 13 were in August, 9 in June, 8 in July, 7 in May, 6 in September, 4 in both November and December, 3 in each of the months of January, April, and October, and one in March.

*Thunder was heard but lightning was not seen* on 66 days; of these 14 were in August, 12 in July, 11 in June, 8 in May, 5 in both April and October, 4 in March, 3 in November, 2 in January, and one in both September and December.

*Lightning was seen but thunder was not heard* on 49 days; of these 7 were in October, 6 in December, 5 in each of the months of May, July, and September, 4 in each of the months of January, April, August, and November, 3 in June, and 2 in March.

*Solar halos were seen* on 74 days; of these 11 were in May, 10 in July, 9 in June, 8 in both March and August, 6 in October, 5 in both September and December, 4 in April, 3 in both February and November, and 2 in January.

*Lunar halos were seen* on 40 nights; of these 6 were in each of the months of February, April, May, and October, 5 in both March and December, and 2 in each of the months of January, September, and November.

*Aurora Borealis were seen* on 9 nights; of these 3 were in February, 2 in both March and April, and one in both November and December.

*Snow fell* on 89 days; of these 30 were in January, 22 in February, 12 in December, 10 in March, 8 in October, 4 in April, 2 in May, and one in November.

*Hail fell* on 85 days; of these 17 were in January, 16 in October, 10 in March, 9 in December, 7 in November, 5 in each of the months of April, June, July, and August, 4 in May, and 2 in February.

*Fog prevailed* on 151 days; of these 23 were in September, 19 in January, 18 in February, 17 in December, 16 in November, 15 in both March and October, 8 in both April and May, 7 in August, 3 in June, and 2 in July.

TABLE 1.—United Kingdom: Population of its several portions estimated to the the British Seas, and of the portions of the Army,

\* For the purposes of this table LONDON includes, for recent years, the Strand Union Workhouse at Edmonton, the Holborn Union Workhouse at Mitcham, the City of London Asylum, Stone, and the Metropolitan Hospitals and Asylums situated outside Registration London. Some of the figures for 1895 may differ, therefore, from those in Tables 11, 26, and 27.

\* For the years prior to 1894 the Town Districts consisted of the 33 great towns; 67 other large town districts (represented approximately by registration districts or sub-districts); and all other registration sub-districts, three-fourths of the population of which, as enumerated in 1881, resided within the boundaries of Urban Districts existing in 1886. For 1894 and 1895 the Town Districts consisted of the 33 great towns, 67 other large towns, and all registration districts and sub-districts, three-fourths of the population of which, as enumerated in 1891, resided within the boundaries of Urban Districts. The Country Districts consisted of the remainder of England and Wales.

NOTE.—Up to and including 1886 masters were excluded from the above employment and mortality figures; the latter of which contain some cases of men who died in colonial vessels and fishing vessels not registered under the Merchant Shipping Acts, whose crews are not included in the employment column.

Since 1886 masters are included in both columns, and the employment and mortality figures relate only to persons employed in vessels registered under Part I. of the Merchant Shipping Act, belonging to the United Kingdom, the Isle of Man, and Channel Islands. Deaths occurring in the United Kingdom after the seamen have been discharged from their ships, and on vessels employed exclusively in rivers and inland navigation, and on yachts, are not included.

**TABLE 36.—MERCHANT SERVICE. Births and Deaths at Sea among Passengers (British Subjects), reported to the Registrar-General of Seamen.**

\* The prices of Consols for the years 1846-52 relate to the 12 months beginning 1st April; from 1853 onwards the prices relate to calendar years. For the years 1846-88 the prices relate to stock bearing 3 per cent. interest, for 1889-95 to stock bearing 2½ per cent.

† From the Board of Trade Statistical Abstract.

‡ The Registrar-General is unable to give precise information as to the price of meat for the years 1889-91.

§ The prices of coal are furnished by the Mineral Statistics Department of the Home Office.

|| Derived from Returns, published by the Local Government Board, of the number of persons in receipt of Relief on the last day of each week.

NOTE.—The population in the four years 1862-65 and in the years 1867-69 is estimated by means of the average annual rate of increase observed between the two enumerations of 1861 and 1866. The deaths of Frenchmen abroad, civil or military, are registered in the books of the Commune in which they were last domiciled.

\* Census year.

† Cholera prevailed in 1865-66, and war raged in 1870 and 1871.

NOTE.—Statistics for the 7 years 1871-77 were not issued owing to the disturbed state of the country. The decline in registered marriages in 1870 is believed to be due to the introduction of civil registration, which occurred in that year.

NOTE.—The numbers for Rome were first included with those for the Kingdom of Italy in 1872. The population figures given for census years show the numbers enumerated on 31st December in each of those years; whereas for the end of each of the other years the population is estimated on the assumption that the rate of increase which prevailed in the last inter-censal period has since been maintained.

\* Census year.

\* The Registration Counties consist of groups of Registration Districts, which are generally co-extensive with the Poor Law Unions. A District which extends into two or more Geographical Counties is included entirely in that Registration County in which the principal town of the District, or the greater part of the population, is located. The boundaries of the Registration Counties differ therefore more or less from the boundaries of the Geographical Counties. For areas and populations of the Registration Divisions and Counties, see pages 64-67.

BIRTHS, DEATHS, and MARRIAGES, registered in the Year 1895—*continued.*

\* The 633 Registration Districts (Paddington 1a, North Bierley 497b, and Holyhead 631 having been constituted Registration Districts since the numerical arrangement 1 to 620 was adopted on 1st January 1881) are collections of contiguous Parishes or Places combined for purposes connected with the Registration of Births, Deaths, and Marriages, and are nearly always identical with the Poor Law Unions of the same names; they are arranged, according to the local position, under the Registration Counties. The Registration Sub-districts (2085 in number at the end of the year 1895) are sub-divisions of Registration Districts, within which the Births and Deaths are registered by Registrars severally appointed for that purpose. The letter W denotes that the Sub-district contains within its limits a Workhouse Establishment belonging to the District or Union; w indicates a Workhouse Establishment receiving inmates from other Districts than the one in which it stands; H indicates a Hospital or Infirmary; L a Lunatic Asylum; and repetitions of these letters show the number of such Institutions in each Registration sub-district.

† These areas, revised by the Ordnance Survey Department, are derived from those published in the Census Report of 1891. They do not include space occupied by foreshore or tidal water of rivers and creeks. Numerous changes in the boundaries of sub-districts have taken place since the Census of 1891; in the majority of these cases the new areas have not yet been ascertained.

‡ The population of the Registration County of London at the Census taken on 29th March 1896 was 4,411,710. The numbers enumerated in the separate sub-districts are shown in Table 5 of the Registrar General's Weekly Returns.

§ The Deaths in the principal Institutions in England in 1895 are given on pages 71-94.

\* 339.—The District of Hereford comprises the two Poor Law Unions of Hereford (Dewchurch, Fownhope, Burghill, and Hereford City sub-districts), and Dore (Madley, Kentschurch, and Clodock sub-districts).

† 339 : 2, 4; 341 : 3.—The boundaries of these sub-districts were altered during the year; for details see Table 61, page cxxvi. The births and deaths in sub-districts 339 : 2 and 4 are shown as if the change had taken place at the beginning of the year, and in sub-district 341 : 3 they are included in the figures for the sub-district in which they were registered.

\* 450.—The District of CHESTER comprises the three Poor Law Unions of Tarvin (Tattenhall sub-district), Chester (Chester Castle and Chester Cathedral sub-districts), and Hawarden (Hawarden sub-district).

† 450 : 1.—The boundaries of this sub-district were altered during the year; for details see Table C1, page xxxiii. The births and deaths are included in the figures for the sub-district in which they were registered.

† 450 : 5.—Owing to the negligence of the late registrar for the Prescot sub-district, the births of 5 legitimate and 21 illegitimate children born in the year 1893, and of 4 legitimate and 25 illegitimate children born in the year 1894, were not registered until the year 1895.

The births and deaths are included in the figures for the sub-districts in which they were registered.

† 470: 7.—On the 1st July 1895 the sub-districts of Wuerdle and Whitworth were united under the name of Whitworth and Wardle.

† 471.—On the 1st July 1895 the Haslingden Registration District, which formerly consisted of five registration sub-districts, was re-divided into four sub-districts; for details see Table 61, page cxix. Owing to the complicated changes in the boundaries it has not been possible to obtain the separate figures for the births and deaths registered in the first three sub-districts.

## DEATHS IN WORKHOUSES, HOSPITALS, LUNATIC AND IDIOT ASYLUMS.

1895.

---

THE following Table shows the numbers of deaths (Persons, Males, and Females) registered during 1895 in Workhouses, Hospitals, Lunatic Asylums and Idiot Asylums of England. These figures afford the means of correcting the mortality of districts and sub-districts in which these Institutions are situated. The Table includes 2042 Institutions; of these 766 are Workhouses, Workhouse Infirmaries, or Workhouse Schools; 1170 Hospitals or Infirmaries; and 106 Lunatic Asylums. The Lunatic Asylums comprise County and Borough Asylums, Lunatic Hospitals, and Idiot Asylums. The Metropolitan Asylums for Imbeciles are classed in the Table as Workhouses. In these 2042 Institutions 71,415 deaths were registered during the year, or 12·6 per cent. of the total deaths in England and Wales, against 12·4 and 13·1 per cent. in the two preceding years; 41,386 occurred in Workhouses, 22,953 in Hospitals, and 7076 in Lunatic Asylums. The proportion to total deaths was 7·28 per cent. in Workhouses, 4·03 in Hospitals, and 1·24 in Lunatic Asylums. The proportion of deaths recorded in Workhouses, which had been 7·12 and 7·48 per cent. in 1893 and 1894 respectively, was 7·28 per cent. in 1895.

Information relating to the deaths recorded in many Private Lunatic Asylums, and in a few other institutions, will be found in the notes to the following pages.

---

\* When a person dies from an operation performed on account of any disease or injury the nature of which is stated in the certificate, the death is classed under that disease or injury.

Of the above 12,020 ACCIDENTS, 130 are stated to have occurred to Men in a state of INTOXICATION.  
In 322 other cases Death was accelerated by the superintention of DELIRIUM TREMENS, Erysipelas,  
MORTIFICATION, PYÆMIA, or TETANUS.\* Here follow the details:—

CAUSES INDUCING OR ACCE- LERATING DEATHS FROM ACCIDENT.	ALL AGES.	Total under 1 Year.		1—	2—	3—	4—	Total under 5 Years.	5—	10—	15—	20—	25—	35—	45—	55—	65—	75—	85 and up- wards.	
		Infants under 1 Month.	Others.

## INDEX OF REGISTRATION DISTRICTS.

The following Index furnishes a reference to the *Number* of each REGISTRATION DISTRICT in the topographical arrangement adopted in the Tables of Abstracts contained in the Report.\* The alphabetical arrangement places compound names in the order in which they are pronounced: thus, East Ashford will be found under the letter E, and *not* under A.

In consequence of numerous alterations (amalgamations of districts and formations of new districts) since the numerical arrangement, 1 to 623, was adopted in the Abstracts for the year 1847, the districts were re-numbered consecutively from 1 to 630 in the Abstracts for the year 1881. Since that date three new Registration Districts have been formed, the District of Kensington (1) having been divided into Paddington (1a) and Kensington (1b), the District of Bradford (497) into Bradford (497a) and North Bierley (497b), and the District of Anglesey (630) into Anglesey (630) and Holyhead (631).

For names of Towns, such as Bournemouth, Maidenhead, &c., which are not found in this "Index of Registration Districts," see the "Index of Registration Sub-districts" (pp. 208-217) and "Index of certain Towns" (pp. 220, 221).

## A

Aberayron, 604.  
Abergavenny, 582.  
Aberystwith, 605.  
Abingdon, 115.  
Alcester, 397.  
Alnwick, 563.  
Alresford, 105.  
Alston, 568.  
Alton, 106.  
Altrincham, 445.  
Alverstoke, 89.  
Amersham, 140.  
Amesbury, 253.  
Amphill, 173.  
Andover, 110.  
Anglesey, 630.  
Ashbourne, 438.  
Ashby-de-la-Zouch, 406.  
Ashton under Lyne, 468.  
Aston, 387.  
Aitcham (Shrewsbury) 351.  
Atherstone, 389.  
Auckland, 545.  
Axburgh, 315.  
Axminster, 269.  
Aylesbury, 143.  
Aylsham, 225.  
Aysgarth, 539.

## B

Bakewell, 440.  
Bala, 623.  
Banbury, 155.  
Bangor, 628.  
Barnet, 128.  
Barnsley, 506.  
Barnstaple, 285.  
Barrow in Furness, 482.  
Barrow upon Soar, 408.  
Barton Regis, 321.  
Barton upon Irwell, 463.  
Basford, 430.  
Basingstoke, 108.  
Bath, 317.  
Battle, 69.  
Beaminstor, 267.  
Bedale, 537.  
Bedford, 171.  
Bedminster, 319.  
Bedwelty, 583.  
Belford, 564.  
Bellingham, 561.  
Belper, 437.  
Berkhamstead, 139.  
Bewick, 565.  
Bethnal Green, 16.  
Beverley, 519.  
Bicester, 151.  
Bideford, 287.  
Biggleswade, 172.  
Billericay, 191.  
Billesdon, 402.  
Bingham, 434.  
Birkenhead, 452.  
Birmingham, 386.  
Bishop Stortford, 131.  
Blaby, 403.  
Blackburn, 474.  
Blandford, 260.  
Blean, 58.  
Blofield, 228.  
Blything, 216.  
Bodmin, 294.  
Bolton, 461.  
Bootle, 576.  
Bosmere, 211.  
Boston, 417.  
Bourne, 414.  
Brackley, 156.  
Bradfield, 118.  
Bradford on Avon, 219.  
Bradford (Yorkshire), 497a.  
Braintree, 199.  
Bramley, 500.  
Brampton, 570.  
Brecknock, 608.  
Brentford, 126.  
Bridge, 56.  
Bridgend, 589.  
Bridgnorth, 348.  
Bridgwater, 307.  
Bridlington, 525.  
Bridport, 268.  
Brighton, 77.  
Bristol, 320.

Brixworth, 163.  
Bromley, 41.  
Bromsgrove, 384.  
Bromyard, 341.  
Buckingham, 146.  
Builth, 607.  
Burnley, 472.  
Burton upon Trent, 367.  
Bury, 462.  
Bury St. Edmunds, 206.

## C

Caistor, 424.  
Calne, 245.  
Camberwell, 26.  
Cambridge, 179.  
Camelford, 290.  
Cannock, 370.  
Canterbury, 57.  
Cardiff, 586.  
Cardigan, 601.  
Carlisle, 572.  
Carmarthen, 597.  
Carnarvon, 627.  
Castle Ward, 558.  
Catherington, 103.  
Caxton, 177.  
Chapel-en-le-Grith, 441.  
Chard, 309.  
Cheadle, 365.  
Chelmsford, 192.  
Chelsea, 3.  
Cheltenham, 335.  
Chepstow, 580.  
Chertsey, 31.  
Chester, 450.  
Chesterfield, 439.  
Chester-le-Street, 552.  
Chesterton, 178.  
Chichester, 84.  
Chippenharn, 244.  
Chipping Norton, 154.  
Chipping Sodbury, 322.  
Chorley, 475.  
Chorlton, 464.  
Christchurch, 93.  
Church Stretton, 346.

\* Thus, the number of Births, Illegitimate Births, Deaths, and Marriages in the Aberayron District may at once be ascertained by referring to the "Abstract of Births, Deaths, and Marriages," District number 604 (see page 61)

Cirencester, 331.

## INDEX OF REGISTRATION SUB-DISTRICTS.

[In this alphabetical arrangement the principle is adopted of placing the Sub-Districts (or Registrars' Districts) having *compound names* in the order indicated by the usual pronunciation of those names; thus, East Grinstead will be found under the letter E, and not under G; St. James under the letter S, and not a "James, St." The number against each Sub-District, in the third column, refers to its numerical place in the Tables of Abstracts; thus, Abbey Holme (573; 2) is the 2d Sub-District of the Wigton District No. 573.]

SUB-DISTRICT.	DISTRICT.	No.	SUB-DISTRICT.	DISTRICT.	No.	SUB-DISTRICT.	DISTRICT.	No.
<b>A</b>			Ardwick . . .	Chorlton . . .	464; 2	Basingstoke . .	Basingstoke . .	108; 1

## URBAN DISTRICTS.

Urban Districts are not in general co-extensive with Registration Areas; their exact constitution is given in the Census Report, vol. ii., table 4.

The names of most Urban Districts are identical with those of the Registration Districts or sub-districts in which they are wholly or partly situated (see Indexes on pages 206-219).

The following Index will facilitate reference when the name of an Urban District differs from that of any Registration Area in which it, or any part of it, is situated.

NAME OF URBAN DISTRICT.	REGISTRATION DISTRICT.	SUB-DISTRICT.	District and Sub-district Numbers.
Aberavon . . .	Neath . . .	Margam . . .	590; 1
Abercam . . .	Newport . . .	Mynyddyslwyn . . .	585; 4
Abersychan . . .	Pontypool . . .	Pontypool . . .	584; 1
Abertillery . . .	Bedwelty . . .	Aberystruth . . .	583; 1
Abram . . .	Wigan . . .	Hindley . . .	458; 4
Adlington . . .	Chorley . . .	Rivington . . .	475; 3
Aldershot . . .	Farnham . . .	Frimley . . .	33; 1
Allerton . . .	West Derby . . .	Wavertree . . .	455; 9
Alsager . . .	Congleton . . .	Sandbach . . .	448; 3
Altofts . . .	Wakefield . . .	Sandal . . .	503; 2
Alvaston and Boulton	Shardlow . . .	Shardlow . . .	435; 3
Amble . . .	Alnwick . . .	Warkworth . . .	563; 1
Arlecdon and Frizington	Whitehaven . . .	Harrington . . .	575; 1
Ashby Woulds . . .	Ashby-de-la-Zouch	Ashby-de-la-Zouch . . .	406; 3
